Heart attack or stroke could make the best years of your life the worst.

You have loved ones, a good future, good health. It could all be lost with a heart attack or stroke. Last year, more than 800,000 Americans died of heart attack and stroke.

So show your family how much you love them. Lower your risks by watching your weight, having your blood pressure checked regularly, and checking with your doctor about an exercise program tailored for you.

For more information about how to lower your risks, contact the Michigan Heart Association.

We're fighting for your life
